

DockerPancake

Testsuro Ayano

Hari P. Kunamneni

Problem

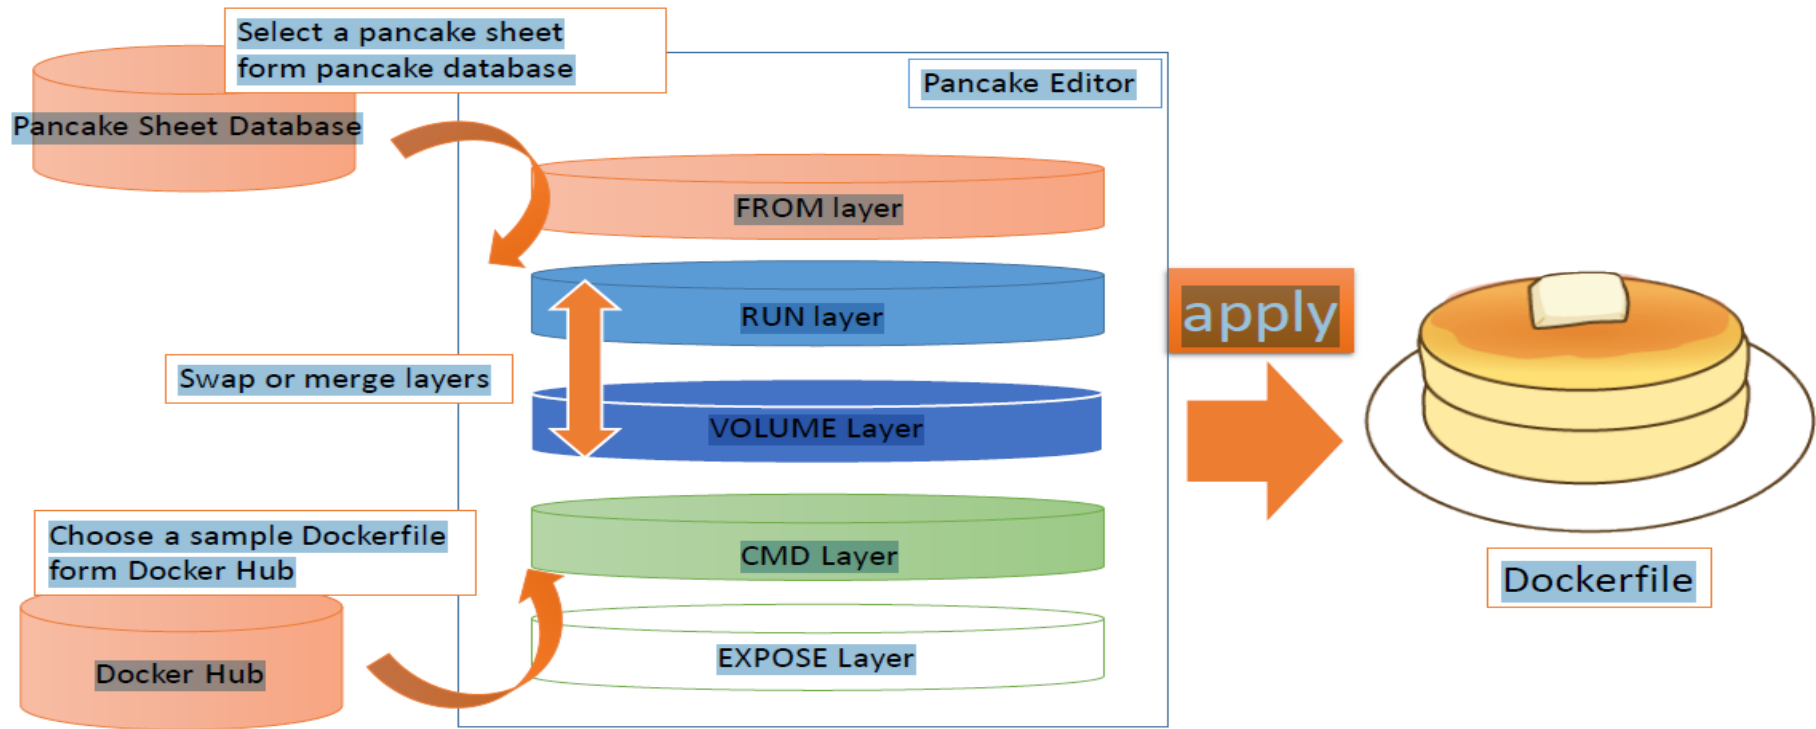

Difficult to create
effective application Due To
Lack of Broad knowledge for a single person
Fast Changing Technology

Solution - Vision

Build Application Container
Using

Intutive Graphical Interface
that allows Contextual component Composition
of Dockerfile with
Continuous Validation and Integration

Docker File - Pan Cake

Building Dockerfiles made easy and fun
just pick and pile pancake pieces on the editor!

Demo

Mock up Demo

Benefits

- Incorporation of Expert Knowledge
- Continuous Validation of Dockerfile-Parsing
- Validation of Container through Building it in cloud in an incremental manner
